

Winter is coming and the WNY District will be ready!

We have 3 options for your office:

9 bags or less

- Small and medium sized offices that use less than 8 bags per month
- 2-3 day turnaround on the order
- Multiple orders can be placed per season.
- swo50brs
- \$6.70

10 bags – 49 bags

- cg6450
- 7-10 day turnaround on the order
- \$12.70

Skid (50 bags)

- Large size offices can order a skid as long as they have the salting responsibilities for the area that the contractor does not cover.
- cg6450-sk
- \$502

If your office is ordering a large amount and will be sharing with another office, **please indicate this in the justification in eBuy2 so your order does not risk denial or a delay.**

Each ebuy2 needs to have the following listed in their justification:

- Office(s) who will be using the order.
- What the salt will be used for. For example, salt walks, parking lot, etc. Some offices pay a snow removal service to salt so the order would be less.
- What you have left over from previous year.

If any of the product arrives in an unusable condition, please email Lou Dileo pictures and information. He'll arrange for a replacement product to be shipped out.

We have the salt ordering history for every office for the past three years. If you're unsure of which product to order or how much, just ask. Improperly stored salt left over after the season often goes to waste because of exposure, which is why we will restrict salt purchases based on ordering history and usage.
